ABOUT US

OLYMPIA is a trusted pharmaceutical importer and distributor, bridging global medical innovations with the local healthcare market. We partner with top international manufacturers to deliver safe, high-quality medicines to hospitals and pharmacies through a reliable supply chain and strict regulatory compliance.

ABOUT US

VISION

To be the leading local partner for global pharmaceutical brands, ensuring seamless access to modern healthcare solutions.

MISSION

To elevate healthcare by delivering safe, world-class pharmaceutical products with speed, compliance, and integrity.

ABOUT US

We are proud to be the exclusive authorized agent for **INDUS** Pharma (Pakistan) and **DOMINA** Pharmaceutical (Syria), as well as an authorized distributor for leading international manufacturers including **MPI** Pharmaceutical gmbH (Germany), **WEST-COAST** Pharmaceutical Works (India), and **DORTMUND** (India).

PARTNERS

Two potted plants are positioned on the left side of the frame. The plant on the far left is tall with large, dark green, heart-shaped leaves, housed in a white, rounded pot. To its right is a smaller plant with variegated green and white leaves, also in a white pot which is supported by a light-colored wooden stand. The background is a plain white wall, and the floor is made of light-colored wood planks.

We are powered by a dedicated team of eight professionals operating across two main offices in two different states. This includes a robust field team of six specialized medical sales representatives who drive our market presence, client engagement, and product promotion.

OUR TEAM

DISTRIBUTION

Two indoor plants are positioned on the left side of the frame. The plant on the far left is tall with large, dark green, heart-shaped leaves, housed in a white, rounded pot. To its right is a smaller plant with variegated green and white leaves, also in a white pot which is supported by a small, light-colored wooden stand. The background is a plain, light-colored wall, and the floor is made of light-colored wood planks.

To guarantee widespread accessibility, our operations are driven through two main offices across two different states, complemented by a strategic network of five partner distributors located in key regions. This combined infrastructure allows us to maintain an efficient, uninterrupted supply chain and deliver pharmaceutical products swiftly to healthcare providers.
